

What to Expect from Picture Person Training at the Minneapolis Institute of Arts

Come to the museum to **experience** the enjoyment of interacting with art, **discover** the diversity of the art in your Art Adventure set, and **learn** techniques for presenting art to - children in their classroom. There's nothing like **seeing the real thing!**

What to expect?

Be ready to learn from experience. Picture Person Training takes place in the galleries with original works of art. You'll interact with a small group led by a trained museum volunteer—your comments will fuel the discussion. You'll learn about the works of art. You'll discuss how to transfer your museum experience into your own classroom presentations.

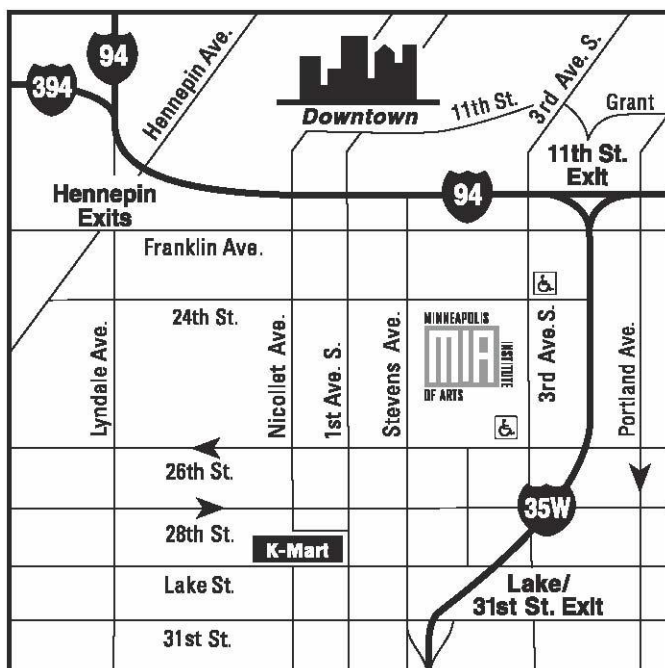

What not to expect?

You won't need a background in art or art history. You won't spend time in a classroom. You won't need to take lots of notes—background information is provided in training booklets you can refer to at home.

What if you've come to training before?

Even if you've participated in Art Adventure in previous years, it's important to explore in - person the works of art you'll be taking into the classroom. Different trainers have different styles—you'll likely pick up some new ideas. Also, first-time Picture People will benefit from hearing about your experiences.
